SKILLS React, JavaScript, Redux, TDD, HTML5, CSS3, SQL, Git

PROJECTS

Pet Overflow (JavaScript, Express)

<https://pet-overflow.herokuapp.com/>

Pet Overflow is a clone of StackOverflow with a pet theme. Features include account creation, question CRUD operations and search bar with autocomplete.

- Collaborated with other engineers using a kanban board to set up goals for the project

Hyphycamp (React, Express, Redux)

<https://hyphycamp.herokuapp.com/>

Hyphycamp is a clone of Bandcamp with a focus on Hip Hop.

- Implemented an audio player to allow users to upload their music

Discuss (Python, Flask, React, Redux)

<https://discuss-aa.herokuapp.com/>

Discuss is a place to find and create your community and meet others that share your interests. It was inspired by Discord and built using React.js and Python.

- Worked with 3 other engineers and divided features to complete the project efficiently

Rebuildable (React, Express, Redux)

<https://rebuildable.herokuapp.com/>

Rebuildable is a Lego community where you can submit and search through Lego creations and sets. It was inspired by Rebrickable.

- Built using React.js and Express
