SKILLS React, JavaScript, Redux, TDD, HTML5, CSS3, SQL, Git, Python

PROJECTS

Pet Overflow (HTML, JavaScript, Express.js, Heroku)

[Live Link](#)

Pet Overflow is a clone of StackOverflow with a pet theme. Features include account creation, question CRUD operations and search bar with autocomplete.

- Incorporated the flexbox CSS model to deliver a responsive design for Questions and Answers features

Hyphycamp (React/Redux, JavaScript, Heroku, PostgreSQL)

[Live Link](#)

Hyphycamp is a clone of Bandcamp with a focus on Hip Hop.

- Implemented a search feature on the front end to allow users to look for songs and artists using useSelector hooks in order to display the filtered results from the Redux store in a component

Discuss (Python, Flask, React/Redux, Heroku, SQLAlchemy)

[Live Link](#)

Discuss is a place to find and create your community and meet others that share your interests. It was inspired by Discord and built using React.js and Python.

- Utilized SocketIO to develop live chat functionality for multiple users
- Developed Flask API routes to implement full CRUD functionality for servers and channels

Rebuildable (React/Redux, Express, PostgreSQL, Heroku)

[Live Link](#)

Rebuildable is a Lego community where you can submit and search through Lego creations and sets. It was inspired by Rebrickable.

- Integrated AWS S3 to store image uploads for faster lookup times when retrieving data

EXPERIENCE

Raider Image

San Leandro, California

Warehouse Assistant

August 2020 – June 2021

- Helped train associates on the warehouse management system and problem solving

Clover Health

San Francisco, California

IT Support

August 2018 – June 2019

- Troubleshoot access and file directory within AWS S3, Cyberduck, and Jamf policies using terminal and Jumpcloud platforms.
- Manage the installation of Microsoft applications on virtual machines utilizing Amazon Workspace
- Support Audio Visual equipment for a variety of company events such as All Hands Meetings, Lunch and Learn presentations, and Hack Day presentations

EDUCATION

App Academy

June 2021 – December 2021

A 6 Month Software Engineering bootcamp with less than 3% acceptance rate

Year Up / Foothill College, San Francisco, CA

September 2017 - July 2018

Year Up is an intensive, competitive technical training and career development program. The program includes college-level courses, professional training and a six-month internship.
